

Introduction to Quality Assurance/Quality Control in Environmental Measurements

Length: One Day
Contact Hours: 8
Location: Sacramento
Cost: Free to DWR staff
Next Class: Winter/Spring 2005

This is the first in the series of classes presented by the DWR QA/QC Unit. The class introduces the application of Quality Control especially in water quality measurements within DWR. The class covers the following topics (subject to change):

- QA/QC organization in DWR
- QA/QC in the planning process
- QA/QC components of DWR Field and Laboratory Management System
- Field Sampling operations
- Bryte Chemical Laboratory and contract labs
- Data Quality Reviews

Biological sampling is covered based on availability of instructors with expertise in the subject.
